### Experience Charter

At Rosehill Methodist Community School we believe that children gain from first hand experiences. We believe in learning through exciting practical engagement both within and beyond the school.

Recently, Staff, Governors, Parents and Pupils were given an opportunity to comment on the range of experiences the School could offer the children.

In September 2011 the charter was created and presented to the children. It remains as a guarantee for each child that they will have the opportunity to experience each item on the Charter during their seven years at Rosehill Methodist Community School.
